Databases

MySQL · Postgres · MongoDB · Firestore · Memcache · Redis · SQLite

Processes and methodologies

Agile · Kanban · Scrum

ABOUT

I come from Reykjavík, Iceland and am the oldest of 5 brothers. In 2006 I moved to Denmark to study. I now live near Aalborg, Denmark with my girlfriend and son. In my off-time I like to cook, take photos and go for walks.

I've been facinated by computers since age 8 and spend much of my free time, learning more about them.

LANGUAGES

Icelandic (native)
English (fluent)
Danish (fluent)

EXPERIENCE

Lead Software Developer   2020 - Present
Venue POS A/S

Leading a team, building the next generation of Point-Of-Sale systems.

React · React Native · Docker · Postgres · TypeScript

Senior Software Developer   2019 - 2019
Redia A/S

Helped to create a teaching platform for a large publisher. Pitched and developed an image-scaling microservice.

React · TypeScript · Docker · Firebase · Go · Microservices · React Native · Serverless · Postgres

Tech Lead   2017 - 2019
PARKPARK A/S

Pitched, developed and delivered a new user-focused app. Moved our infrastructure from a single server to full redundancy in Google Cloud. Ran in-house development, trained new employees, managed our infrastructure, coordinated with freelancers and did full-stack software development.

React · React Native · PHP · Go · JavaScript · MySQL · Kubernetes · Docker · Linux

Senior Developer   2015 - 2017
UVData A/S (now KMD)

I managed releases, did frontend development and was a Scrum-Master on "Min Uddannelse", a large learning platform. I helped introduce React to the organisation, did internal training and helped with recruiting.

React · DevOps · JavaScript · CSS · HTML · jQuery

System Developer   2012 - 2015
M1 A/S (later TDC)

Worked on an internal billing and CRM system as a part of the backend team. I pitched a delivered an automatic plan-upgrade system for usage-warnings that was generating revenue.

PHP · MySQL · Linux · jQuery · Docker · JavaScript

Software Developer   2013 - 2013
Lyngsø Systems A/S

Worked on automatic sorting machines for a large, American clothing store.

Java · Linux · Windows

Software Developer / Intern   2011 - 2011
Sprettur ehf (now Kolibri)

Worked closely with one of our customers on creating a shipping calculator for their website, and a reverse-engineered thermal printer solution.

C# · ASP.NET · Windows

Student Developer   2009 - 2009
Aalborg University

Developed an Android app and a backend that used geolocation to provide the users with location-aware ads.

Java · Python · Django · XML · Android · HTML · CSS

Systems Administrator
2004 - 2006
Calidris (now Sabre)

Managed our systems and network. Supported our developers. Built our VoIP PBX.

Linux | Asterisk | Cisco

Systems Administrator
2002 - 2004
Hringiðan ehf

Managed servers, routers and switches. Customer support.

Linux | Windows Server | Active Directory

Web Developer
2001 - 2002
Þrívíddarmiðlun ehf (now Hugsandi Menn)

Created custom CMS systems for cinemas and real-estate brokers.

PHP | MySQL | HTML | CSS

Network Technician
2000 - 2001
Titan hf (now Vodafone)

Installed and supported our B2B customers with DSL and fiber connections. Did some minor system administration as well.

Cisco | DSL | Telco | AIX

Web Developer
1999 - 2000
Firmanet ehf

Custom PHP solutions for our customers.

PHP | MySQL | HTML | CSS

Tester
1998 - 1999
Frisk Software ehf

Tested releases, collected binaries on the Internet for a false-positive database. Did some minor web development.

PHP | MySQL | Testing
